Bulletin 224

To: TAIPA Certified Producers

UPGRADING TO EASi 2.0 FOR COMMERCIAL APPLICATIONS

On April 11, 2017, access to TAIPA Commercial applications will be moving to the EASi 2.0 platform (which is the platform currently in use for TAIPA Private Passenger applications). Producers will still need to manually rate and submit Commercial applications using the automated PDF form, just as they do in EASi 1.0 today.

There are several advantages to this technical upgrade that producers will find beneficial. These features include:

- Use of a single login for both Private Passenger and Commercial applications
- Self-service option for resetting a forgotten password
- Ability to retract Commercial applications electronically
- A single search facility for both Private Passenger and Commercial applications

Any Commercial applications that have been *saved* but *not yet submitted* in EASi 1.0 will be unavailable as of April 11, 2017. These applications will have to be re-entered in EASi 2.0.

Any Commercial applications *submitted* in EASi 1.0 prior to April 11, 2017 will continue to be available to you for viewing and/or reprinting for 120 days.

If you have any questions, please contact TAIPA Customer Service toll-free at 866-321-9154 or by email at customer.service@taipa.org.

Sincerely,

Stacy Dutton
Acting Manager
