TEXAS AUTOMOBILE INSURANCE PLAN ASSOCIATION MANUAL

**Truck, Tractor, Trailer Rate Section .....CR-1**  
**Public Transportation Auto Rate Section .....CR-2**

**GENERAL RULES SECTION**

**NOTES**

**GENERAL RULES CHAPTER**

**Rule 1. APPLICATION OF MANUAL**

Throughout this manual “Department” means the Texas Department of Insurance.

Base rates and base premiums mean the Association rates as promulgated by the Department. The rules in this manual apply to the writing of auto insurance in the state of Texas.

- A. This manual is divided into separate Chapters:
  - 1. General Rules
  - 2. Private Passenger
  - 3. Commercial Auto
    - a. Trucks, Tractors and Trailers
    - b. Public Transportation
    - c. Special Types & Operations
- B. If an auto is eligible for classification or rating in more than one chapter of this manual because of its use, use the chapter producing the highest rated classification, unless 80% or more of the use is in a lower rated classification.
- C. All rates and premiums in this manual are annual rates and premiums unless otherwise specified.
- D. When the symbol © is shown, it indicates that an endorsement is used.

**Rule 2. PREMIUM CALCULATION**

- A. Calculate the premium for each coverage and exposure for which a separate premium is shown on the policy, as follows:
  - 1. For new policies issued for a term of one year use the premium tables and rates in effect on the policy inception date.  
  
For renewal policies issued for a term of one year use the premium tables and rates in effect on the policy renewal date.
  - © 2. For new policies issued for a term greater than one year, use the premium tables and rates in effect on the policy inception date for the first year and the premium tables and rates in effect on each anniversary date of the policy inception date for each period succeeding the first year.  
  
For renewal policies issued for a term greater than one year, use the premium tables and rates in effect on the policy renewal date for the first year and the premium tables and rates in effect on each anniversary date of the policy renewal date for each period thereafter.
  - 3. For interim premium adjustments or calculations, refer to the Changes rule (Rule 4).
  - 4. Apply factors or multipliers consecutively. Do not add factors together except where other Manual rules specifically require factors to be added or subtracted from other factors.

- 5. Apply factors or multipliers to all intermediate calculations and round the result of each step of the calculation (as marked by an asterisk in the example) to three decimal places, unless otherwise provided by a specific Manual rule. Five-tenths or more of a mill shall be considered one mill. (Example: .1245 = .125)
- 6. Apply the appropriate pro-rata term factor to the resulting premium calculated in A.1 through A.5 of this Rule.
- 7. Round the resulting premium for each coverage or exposure for which a separate premium is calculated to the nearest whole dollar. Five hundred mills or more shall be rounded to the next higher dollar. (Example \$1 00.500 = \$101.00, but 100.499 = \$100.00). This rounding to the nearest whole dollar shall occur only once in the premium calculation in determining the final premium for each coverage or exposure.
- B. An insurer may vary the sequence for applying the factor specified in A.6 of this Rule as long as the result of each calculation specified in A.4 through A.6 of this Rule is rounded to three decimal places and the rounding required in A.5 of this Rule is the last step in the premium calculation.

**Example:** (the sequence of calculation may vary except for the rounding required in A.7 of this Rule as the last step in the premium calculation)

To calculate the Bodily Injury premium for a Class 2C-1 Travis County driver with 10% driver training credit and an additional charge of 15% for a traffic conviction per the Additional Charges rule (Rule 9).

	B.I.	575.00
Driver training credit	<u>x .90</u>	517.500
15% additional charge	<u>x 1.15</u>	595.125
		\$595.00
Round to the nearest whole dollar		

**Rule 3. POLICY MINIMUM PREMIUM**

Apply the following non refundable minimum premium for any period of coverage:

- A. Personal Auto Policies—\$25
- B. All other policies—\$50

**Rule 4. CHANGES**

- A. All changes requiring adjustments of premium shall be computed pro rata.
- B. **Addition of any auto or any form of coverage during a policy term**— Compute the premium using the rules and rates in effect at the time of the current policy effective date. If the minimum limits required by the Texas Motor Vehicle Safety-Responsibility Act change during the policy period the rates and limits of liability in effect at inception of the policy will apply.

- C. **Transfer of coverage from one auto to another during a policy term**—Compute the premium using rules and rates for the new auto that were in effect at the original inception date of coverage for that auto.
- D. **Transfer of auto principal garaging from one rating territory to another during a policy term**—Compute the premium using rules and rates for the new territory that were in effect at the original inception date of coverage for that auto(s).
- E. **Change in classification, additional charges or applicable credits during a policy term**—Compute the premium using rules and rates in effect at the original inception date of coverage for that auto(s).
 

**Note:** If a change outlined in B., D. or E. occurs simultaneously with a substitution of an auto, rates and rules application of Paragraph C applies.

**Rule 5. CONTINUATION OF COVERAGE—  
CANCELLED OR TERMINATED  
POLICY**

If a policy is cancelled or terminated for non-payment of premium, coverage may be continued as follows:

- A. The policy may be reinstated or renewed at the option of the company without lapse in coverage.
- B. If the company elects to continue coverage for the insured after payment of premium but not to reinstate or renew the policy as set forth in A above, a short term policy may be issued to complete the original policy term in accordance with the procedure set out in the premium development rules at the rules and rates in effect at the inception of such short term policy.
- C. In lieu of the procedures set out in A or B above, the company may issue a new full term policy in accordance with the policy term and premium development rules.

Except as provided for in A above, no cancelled or terminated policy may be reinstated.

**Rule 6. CANCELLATIONS**

**All Policies—Computation of Premium**

This provision applies when a policy, auto or form of coverage is cancelled.

**Rule 7. UNINSURED/UNDERINSURED MOTORISTS COVERAGE**

- ⊕ A. **Owners** (coverage Code: Refer to the Statistical Plan)—Uninsured/underinsured motorists coverage must be provided when liability coverage is written for the owner of an auto or trailer that is registered or specifically garaged in Texas unless rejected in writing by the named insured.  
Once rejected, the coverage is not required under subsequent renewals issued by the same company or affiliated insurer, unless requested by the named insured in writing.
- B. **Non-owners** (Coverage code 9900) Uninsured/underinsured motorists coverage may be provided for a non-owner under a Named Non-owner or Named Operator-Governmental Employee Policy. Charge the rate applicable for the first auto for owners.
- C. **Limits**—The minimum limit is that limit which is required by the Texas Motor Vehicle Safety-Responsibility Act. Coverage is to be provided on a split limit basis only.
- D. **Deductible**—Property damage liability coverage is subject to \$250 deductible.
- E. **Modification**—Do not modify the premium under any rating plan or other manual rule provisions.
- F. **Rates**—Refer to the appropriate rate section. If liability rates are based on private passenger liability rates, use the private passenger rates. For all others, use the truck, tractor, trailer or public transportation rates.

**Rule 8. PERSONAL INJURY PROTECTION**

- ⊕ A. **Owners**—Personal injury protection must be provided when bodily injury liability coverage is written for the owner of an auto or trailer principally garaged in Texas, unless specifically rejected in writing by the named insured.  
Once rejected personal injury protection is not required under subsequent renewals issued by the same company or an affiliated insurer, unless requested by the named insured in writing.
  - B. **Non-owners**—Personal injury protection coverage may be provided under a Named Non-owner Policy. Refer to the Named Non-owner Coverage rule (Rule 45).
  - C. **Rates**—Refer to the appropriate Personal Injury Protection Rate pages. For private passenger autos and autos classified and rated as private passenger autos use the rates in Table A or Table B of the Private Passenger Rate Section. For risks written at a percentage of private passenger rates, such as motorcycles, use the rates in Table B of the Private Passenger Rate Section unless specified otherwise in the rule.
- NOTES: 1. If personal injury protection insurance is afforded for more than one auto covered under the same policy owned by an individual or husband and wife resident in the same household, apply the personal

injury protection rate in Table A to only one auto.

- 2. Apply applicable rating factor(s) to the base rate before entering table for personal injury protection, except for private passenger autos eligible for credits under the rules in the Private Passenger Chapter.

The limit of liability is \$2,500 per person, per accident.

**Rule 9. ADDITIONAL CHARGES**

- A. Additional charges are applicable to all risks.
- B. **Experience Period**  
The experience period is the 36 months immediately preceding the date of the policy.

  - 2. each conviction involving the applicant, named insured or any other person who operates the auto(s).
- D. **Additional Charges for Accidents and Convictions**
  - 1. **Accidents**

20%—For each accident  
**Exceptions:** No additional charge shall apply for involvement in an accident:
    - a. that occurred while the auto owned or operated by the applicant or other person who usually drives the applicant's auto was lawfully parked, standing, or stopped; or
    - b. in which the auto was struck by a hit-and-run driver, if such accident was reported to the proper authority within 24 hours; or
    - c. as a result of which the applicant or other person who usually drives the applicant's auto obtained a judgment against, or a settlement from or on behalf of, the owner or operator of another auto involved in such accident if the judgment or settlement was obtained prior to the date of application or in case of renewal, prior to the effective date of the renewal policy, and provided no judgment was obtained against or any amount paid in settlement by or on behalf of the applicant or other person who usually drives the applicant's auto as a result of such accident; or
    - d. in connection with which neither the applicant nor other person who usually drives the

applicant's auto was convicted of a moving traffic violation and the owner or operator of another auto involved was so convicted; or

- e. resulting in the payment of a personal injury protection loss only.

**2. Convictions**

The term "convictions" as used herein, includes a final conviction in any court in the United States; forfeiture of bond; or payment of a fine or an amount accepted by the court, whether paid by or on behalf of the applicant or operator, as a result of an allegation that a violation of a law regulating the operation of autos has been committed.

The additional charge shall be in addition to any premium charge applicable under the Certified Risks—Financial Responsibility Laws rule (Rule 10).

- F. If, during the term of the policy, it becomes necessary for the insured to file proof of financial responsibility in accordance with the provisions of a financial responsibility law, the cause for which the filing is required shall be deemed to be within the experience periods referred to in paragraph D.1 and D.2 above and any additional premium shall be computed on a pro rata basis from the date the certificate is required until the end of the policy period. (Exception: see note under convictions).

- G. Compute the additional charge premium as follows:

2. **Garages—Named operator Basis**— For policies issued to auto sales agencies, repair shops, storage garages, service stations, and trailer sales on a named operator basis, apply the additional charge percentage to the manual premium for the highest rated named operator.
3. **Non-owners—Named Driver or Named Non-owner Policy** —Apply the additional charge percentage to the manual premium for the policy.

**Exception:** Provided owner's coverage is assigned through the Association, the additional charges applied in the rating of the owner's coverage shall not be applied in the rating of a Named Driver or Named Non-owner Policy, assigned through the Association, that insures a relative of the owner who is a resident of the same household.

Attach the appropriate Financial Responsibility Certificate Endorsement. Policies certified under an SR-22 filing must describe the motor vehicle so certified. If a Non-owner Policy is involved the certificate must so indicate. Further, The Texas Motor Vehicle Safety-Responsibility Act requires with respect to an "owners policy of liability insurance" that such policy shall provide coverage for the insured named therein and any other person, as insured, using a vehicle so certified with the express or implied permission of such named insured. **TRUCKS, TRACTORS, TRAILERS**

**Rule 53. TRUCKS, TRACTORS AND TRAILERS CLASSIFICATIONS**

**A. Fleet—Non-fleet Classifications**

1. Classify as fleet the autos of any risk that has five or more self-propelled autos of any type that are under one ownership.
2. Do not include mobile equipment insured on a General Liability Policy in determining if the risk is a fleet.
3. Do not include trailers in determining if the risk is a fleet, but apply the fleet classification to the trailers if the risk otherwise is classified as a fleet.
4. Classify the autos of any other risk as non-fleet.
5. Do not change the fleet or non-fleet classification because of mid term changes in the number of owned autos except at the request of the insured, in which case the policy must be cancelled and rewritten in accordance with the Changes rule (Rule 4).

**B. Primary Classifications**

1. Gross vehicle weight (G.V.W.) and gross combination weight (G.C.W.) mean:
  - a. **G.V.W.**—The maximum loaded weight for which a single auto is designed, as specified by the manufacturer.
  - b. **G.C.W.**—The maximum loaded weight for a combination truck-tractor and semi-trailer or trailer for which the truck-tractor is designed, as specified by the manufacturer.

**2. Size class**

A vehicle with a gross vehicle weight in excess of 26,000 lbs. (48,000 lbs. or more for farm vehicles) designed to carry goods or materials (cargo), is not eligible for assignment through the association.

- a. Light trucks—trucks that have a gross vehicle weight (G.V.W.) of 10,000 lbs. or less.
- b. Medium trucks—
  - (1) Trucks that have a gross vehicle weight (G.V.W.) of 10,001–20,000 lbs.
  - (2) Include crawler type trucks in this class.
- c. Heavy trucks—trucks that have a gross vehicle weight (G.V.W.) of 20,001–26,000 lbs. farm trucks 45,000 lbs.
- d. Extra-heavy trucks—farm trucks that have a gross vehicle weight (G.V.W.) over 45,000 lbs. and less than 48,000 lbs.
- e. Truck-tractors—a truck-tractor is a motorized auto with or without body for carrying commodities or materials, equipped with a fifth wheel coupling device for semi-trailers.
  - (1) Heavy truck-tractors—truck-tractors that have a gross combination weight (G.C.W.) of 26,000 lbs. (farm truck-tractors 45,000 lbs. or less).

- (2) Extra-heavy farm truck-tractors—farm truck-tractors that have a gross combination weight (G.C.W.) over 45,000 lbs. and less than 48,000 lbs.
- f. Semi-trailers—a semi-trailer is a trailer equipped with a fifth wheel coupling device for use with a truck-tractor, with a load capacity over 2,000 lbs. This includes bogies used to convert containers into semi-trailers.
- g. Trailers—any trailer with a load capacity over 2,000 lbs. other than a semi-trailer.
- h. Service or utility trailer—any trailer or semi-trailer with a load capacity of 2,000 lbs. or less.
- i. If a bus is to be rated as a truck, determine the size class from the seating capacity as follows:

Seating Capacity	Size Class
1–8	Light
9–20	Medium
21–60	Heavy
over 60	Extra Heavy

3. **Business use classes**—If an auto has more than one use, use the highest rated classification unless 80% or more of the use is in a lower rated activity. In that case, use the lower rated classification.

However, if there is a change in actual use of the auto during the policy period the classification shall be amended accordingly.

a. Service use—includes

- (1) Autos used for transporting the insured’s personnel, tools, equipment and incidental supplies to or from a job location; or
- (2) Autos used primarily in connection with an insured’s own farming or ranching operations; or

**Note:** (1) and (2) above are confined to autos principally parked at job locations for the majority of the working day.

- (3) Autos used to transport supervisory personnel between job locations; or
- (4) Autos driven by salesmen or driven principally to and from work or used for pleasure.

This classification applies to autos that have reduced exposure because their use is closely associated with the installation or service of appliances, fixtures, equipment, and other products. It includes autos used by artisan-type risks, such as carpenters, plumbers, and contractors, other than those eligible for Personal Auto Policy coverage. The delivery of a product to be installed or that has been repaired does not disqualify the auto from this classification.

**TRUCKS, TRACTORS, TRAILERS**

- b. Retail use—autos used to pick up property from, or deliver property to individual households.  
  
Deliveries of heating fuel, milk, groceries, drugs, and laundry are examples of the exposures in this classification. This class also includes parcel post and mail delivery where deliveries are only to private households.
  - c. Commercial use—Truckers and autos used for transporting property other than those autos defined as service or retail.
4. **Radius class**—determine radius on a straight line from the street of principal garaging.
- a. Local—up to 50 miles—The auto is not regularly operated beyond a radius of 50 miles from the street address where such auto is principally garaged.
  - b. Intermediate—51 to 200 miles—The auto is operated beyond a radius of 50 miles but not regularly beyond a radius of 200 miles from the street address where such auto is principally garaged.
  - c. Long Distance—over 200 miles—The auto is operated regularly beyond a 200-mile radius from the street address where such auto is principally garaged. Apply zone rates for other than light trucks.
5. **Primary classifications**—Refer to the Fleet, Non-fleet [Primary Classifications tables](#).

**PUBLIC TRANSPORTATION**

**Rule 63. PUBLIC AUTO CLASSIFICATIONS**

Classify public autos as follows:

A. If an auto has more than one use, use the highest rated classification unless 80% or more of the use is in a lower rated activity. In that case use the lower rated classification.

**B. Fleet—Non-fleet Classification**

1. Classify as fleet the autos of any risk that has five (5) or more self-propelled autos of any type that are under one ownership. Do not include autos owned by allied or subsidiary interests.
2. Do not include mobile equipment insured on a General Liability Policy in determining if the risk is a fleet.
3. Do not include trailers in determining if the risk is a fleet, but apply the fleet classification to the trailers if the risk is otherwise classified as a fleet.
4. Classify the autos of any other risk as non-fleet.
5. Do not change the fleet or non-fleet classification because of mid-term changes in the number of owned autos except at the request of the insured. The policy must be cancelled and rewritten in accordance with the Cancellations rule (Rule 6).

**C. Seating Capacity**

1. Use the seating capacity specified by the manufacturer of the auto unless a public authority rules otherwise.
2. Include the driver's seat when determining seating capacity.
3. A vehicle designed or used to transport more than 15 passengers, including the driver, is not eligible for assignment through the association, unless operated by an entity whose primary function is not the transportation of passengers, such as a hotel, day care center, private school, nursing home or similar organization.

**D. Primary Classifications**

- c. Long Distance—over 200 miles—The auto is operated regularly beyond a 200-mile radius from the street address where such auto is principally garaged. Apply zone rates for all autos other than taxis, limousines (except

airport limousines), school, church and urban buses and van pools.

**2. Use Class**

a. Taxicab or similar passenger carrying service—A metered or unmetered auto that is operated for hire by the named insured or an employee, but does not pick up, transport or discharge passengers along a route.

b. Limousine—An unmarked auto with a seating capacity of 8 or less that is operated for hire by the named insured or an employee and used on a prearranged basis for special or business functions, weddings, funerals or similar purposes. \*
